I am a versatile professional with expertise in data analysis, project management, and web development. My analytical skills enable me to transform complex datasets into actionable insights, supported by clear visualizations and practical recommendations. In project management, I excel at uniting teams, fostering collaboration, and implementing agile methodologies to optimize workflows. Additionally, I combine my proficiency in front-end web development with growing expertise in back-end technologies, allowing me to bridge technical solutions with strategic product objectives. With strong communication skills and a proactive approach, I am the link between strategy and execution.
